# **Comprehensive Expands Specialist Series™ Cable Line with 8K HDMI Cables**

Fairfield, NJ –[Comprehensive Connectivity Company](http://Comprehensive Connectivity Company), the **tested and trusted** commercial connectivity solutions manufacturer to the Pro AV/IT markets since 1974 recently expanded their [Specialist Series™](#) Cable Line with the all-new [Ultra High Speed 8K60 48G HDMI 2.1 Cable up to 10ft.](#)

Consisting of all the most-popular cable types and latest technologies including HDMI, DisplayPort and USB, Specialist Series™ Cables were designed specifically to meet the demands of AV and IT at Higher Ed, K12, SMB and other commercial environments. Specialist Series™ Cables use superior components through-out including copper and aluminum shielding, a specially formulated PVC jacket, enhanced strain relief and a durable machined aluminum (or ABS) connector head for high performance and to ensure that your AV/IT set up is always up and running.

[Specialist Series™ 8K 48G HDMI 2.1 Cables](#) support Ultra-High Speed 8K@60 48Gbps and have bi-directional Ethernet capabilities built in for networking applications without having to use additional wires. They are backwards compatible with previous HDMI 2.0, 1.4, 1.3 and 1.2 versions. They include support for up to 32 channels of audio as well as advanced audio features included in the HDMI 2.0 specification such as DTS-HD, Dolby TrueHD and Dolby ATMOS for superior audio performance when compared with previous HDMI generations. And of course, as is the case with all Comprehensive Cables, Specialist Series™ 8K HDMI Cables are backed by Comprehensive's worry-free Lifetime Warranty.

### ***About Comprehensive***

Comprehensive began in 1974 as a simple idea. With audio-visual, video production, broadcast and computer hardware becoming more and more prevalent in business and education, there was an inherent and unmet need for A/V accessories including reliable, professional grade connectivity solutions and accessories required to interface them and make them work. These solutions had to be extremely reliable able to withstand demanding commercial environments. Over the years, Comprehensive cables and signal management solutions became necessities in every professional broadcast, A/V, or computer network environment because they could be counted on to work every time, all the time. Comprehensive quickly became the leading brand of professional connectivity solutions and the Comprehensive catalog could be found on every audio, video, or computer professionals' desk for almost four decades.

50 years later, many things have changed but thanks to our customers, Comprehensive remains the AV/IT industry standard for connectivity performance, reliability, and value. That's why I.T. and audio-visual professionals around the world trust Comprehensive to provide the backbone of their multi-million-dollar computer networks, digital signage systems, interactive boardrooms, broadcast studios, multimedia classrooms, event stages and other mission critical applications.
