Comprehensive's New Line of VersaDock™ Laptop Docking Stations are the Perfect Solution for Expanding your Laptop's Capabilities

Fairfield, NJ – [Comprehensive Connectivity Company](http://www.comprehensiveco.com), the **tested and trusted** connectivity solutions manufacturer to the Pro AV/IT markets for more than 40 years, launches their **new line of VersaDock™ Laptop Docking Stations**. The perfect solution for expanding your laptop's capabilities, adding versatility and greatly increasing productivity.

Modern laptops are much thinner and as a result, typically have very few ports, making it difficult to connect to additional devices and displays. VersaDock's solve this problem by providing the latest cutting-edge technology in the form of multiple HDMI, USB-C, DisplayPort, Gigabit Ethernet and other vital ports to connect the additional devices and monitors that business users need to get their work done.

VersaDock™

VersaDock's are perfect for BYOD environments, on-the-go business travelers, shared workspace users or for turning your laptop into a full desktop workstation with up to three high resolution monitors.

VersaDock's are also compatible with most Chromebooks™, Windows® Laptops, and MacBooks® via USB-C. These docking stations also feature USB-C pass-through power delivery with up to 100W, so you can conveniently charge your laptop or tablet while connected. VersaDock's are durable, built for business and backed by Comprehensive's 3 Year Warranty, so you can be assured they will always work when you need them.
