Comprehensive Introduces New Line of Portable USB-C 10G and MST VersaHubs™

Fairfield, NJ – Comprehensive Connectivity Company, the **tested and trusted** connectivity solutions manufacturer to the Pro AV/IT markets for over 45 years launches their new line of **VersaHubs™, Portable USB-C 10G and MST Hubs.** VersaHubs™ are versatile solutions that provide quick and easy connectivity to a wide range of devices. Whether you are working at the office, at home or on the road, you always have the connectivity you need to be productive.

Modern laptops are much thinner and as a result, typically have very few ports, making it difficult to connect to additional devices and displays. VersaHubs™ solve this problem by providing the latest cutting-edge technology in the form of multiple HDMI, USB-C, DisplayPort, Gigabit Ethernet and other vital ports to connect the additional devices and monitors that business users need to get their work done. Some VersaHub™ models utilize Multi-Stream Transport (MST) technology, which extends your content across multiple monitors.

VersaHubs™ come in multiple configurations including USB-C 10G and MST and are compatible with all major operating systems including Windows®, Mac®, Android®, iPadOS®, and Chrome™, ensuring simple plug and play connectivity whenever you need it. VersaHubs™ are durable, built for business and backed by Comprehensive's 3 Year Warranty, so you can be assured they will always work when you need them.
